

Type: Additional modules - C-WERK - Software
Item Code: GD-CW-AP-ACR-ADD
EAN CODE: 4260573066285

PROFESSIONAL

The PROFESSIONAL product line comprehensively covers modern video systems and offers versatile solutions for various areas of application.

Highlights

Smartphone App

The mobile application was developed to facilitate operators in effectively controlling and managing video systems remotely, at any time. It allows for live image viewing, playback of recorded video data, and receipt of remote notifications.

Deep Learning

Deep Learning is inspired by the complex structure of the human brain. This innovative method allows processing of information and performing corresponding actions based on analysis.

Features

- Allows C-WERK to connect with Access Control Systems in order to monitor events and control readers.
- Up to 50 readers per system

C-WERK Video Management Software

C-Werk® is a highly scalable Video Management Software (VMS) crafted to effortlessly support both small and large surveillance systems, including multi-location deployments. Renowned for harnessing advanced Artificial Intelligence, C-Werk® delivers exceptional value through intelligent video management features and highly customizable analytics. Its flexible architecture and sophisticated functionalities guarantee optimal performance, establishing it as one of the most versatile and powerful VMS solutions on the market today. The straightforward licensing model allows for tailored solutions, so you only pay for what you need. Built on an end-to-end concept, C-Werk® offers a unified software platform that seamlessly scales—from simple IP camera and recorder management to comprehensive solutions for complex, large-scale facilities.
