

Type: Additional modules - C-WERK - Software

Item Code: GD-CW-AP-LPF

EAN CODE:

PROFESSIONAL

The PROFESSIONAL product line comprehensively covers modern video systems and offers versatile solutions for various areas of application.

Highlights

Smartphone App

The mobile application was developed to facilitate operators in effectively controlling and managing video systems remotely, at any time. It allows for live image viewing, playback of recorded video data, and receipt of remote notifications.

Features

- The module requires a C-WERK Professional Camera License
- LPR module can send notification alert (UI, Text, Email, API) when a certain license plate matched the whitelist/blacklist.
- The software module can open or close potential-free contacts and thus control doors or barriers or execute macros to automate tasks
- Allows C-WERK to run license plate recognition in real time from any surveillance camera.

Intelligent Functions

License Plate Recognition: License plate recognition in real time (up to 150 kmh/90 mph @25 fps), can initiate opening a gate or other actions running a macro to automate tasks

Event Source: Activated when a certain number plate matches the positive / negative list

Event Action: Event wizard with setting options for almost unlimited actions and makros when events occur. For example: Start recording (continuous, alarm, pre-alarm), switch alarm relay, trigger preset of a PTZ dome, notification by SMS, e-mail, announcement on loudspeakers near the camera, output of data to connected systems, etc ..
