

Type: Additional modules - C-WERK - Software

Item Code: GD-CW-AU-WLD

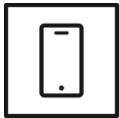

EAN CODE:

ULTRA

The ULTRA product line offers comprehensive, advanced solutions with a wide and complete range of features.

Highlights

Smartphone App

The mobile application was developed to facilitate operators in effectively controlling and managing video systems remotely, at any time. It allows for live image viewing, playback of recorded video data, and receipt of remote notifications.

Features

- The software module can open or close potential-free contacts and thus control doors or barriers or execute macros to automate tasks
- The module requires a C-WERK Ultra Camera License
- Allows C-WERK to measure the water level, display it and give an alarm when the set value is exceeded
