1 Appearance Description

Frontside: **Rearside:**

2 Installation

2.1 Start the PC

Connect the supplied USB-Keyboard and USB-Mouse to the front or rear USB-ports on the server.

After supplying the server with electricity press the ON/OFF-switch on the front. The server boots up and the Windows notifying window appears.

The Windows Log-In is:

User: **Grundig**
Password: **Grundig1234**

2.2 Start C-WERK

Start the C-WERK by double clicking onto the C-WERK icon.

The following window appears:

Log in with **root/root**

then click on

For detailed information of the operation of the C-WERK software please refer to the following link:
